

POLICY STATEMENT

FOR: QUALITY

Laboratory Impex Systems is committed to:-

- 1 The supply of equipment which fully conforms to our customers' requirements.
- 2 The supply of equipment which complies with relevant legislation and regulations specifically related to the design and supply of radiation monitoring systems.
- 3 Maintaining its Quality Management System to the requirements of BS EN ISO 9001:2008 and involving all of the Company's activities and employees.
- 4 Continual improvement of the Quality Management System, using the quality system both pro-actively through quality planning and the setting of objectives, and reactively through audit and review processes.
- 5 Ensuring all employees are responsible for the quality of their own work and are committed to participate in the operation of the Quality System.
- 6 Ensuring the policy is understood, implemented and maintained by all concerned personnel in the Company by training, instruction, procedures and other instruction documents and by internal audit and review of performance against set objectives.

The Management Representative for Quality has the ultimate authority and responsibility for ensuring that the requirements of the Quality System are adhered to and are effective. The Management Representative for Quality will be fully supported by the Board of Directors to allow him/her the support and freedom of action to perform duties effectively.

This policy statement is reviewed annually as part of the ISO9001:2008 Management Review process.

Signed on behalf of
Laboratory Impex Systems Limited

Chris Palmer
Managing Director
